

Fund Update

CareSaver KiwiSaver Scheme: CareSaver Balanced Fund

Quarter ended 30 September 2019

This fund update was first made publicly available on 25th October 2019

What is the purpose of this update?

This document tells you how the **CareSaver Balanced Fund** has performed and what fees were charged. The document will help you to compare the fund with other funds. Pathfinder Asset Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund

An ethical portfolio with a balance between growth assets and income assets. This Fund's value is likely to fluctuate more than the Conservative Fund but less than the Growth Fund.

Total value of the fund	\$934,132
Number of Investors in Fund	31
The date the fund started	23 rd July 2019

What are the risks of investing?

Risk indicator for the CareSaver Balanced Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the last 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this fund.

Also, see *Note 1* for information on the risk indicator calculation.

How has the fund performed?

	Past Year
Return since inception (after deductions for charges and tax)	N/A
Return since inception (after deductions for charges but before tax)	N/A
Market index annual return (reflects no deductions for charges and tax)	5.17%

The Market Index is a composite index made up of; 10% Bloomberg NZBank Bill Index, 30% Bloomberg Barclays Global Aggregate Unhedged (USD) & 60% Morningstar Developed Markets Net Index (70% hedged to NZD).

Additional information about the index is available on the offer register at www.business.govt.nz/disclose (search Offers, using Offer OFR12681, Documents, Other Material Information).

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the CareSaver Balanced Fund are charged fund charges. In the year to 30 September 2019 these were:

	% of net asset value
Total fund charges*	1.12%
Which are made up of:	
Total management and administration charges	1.12%
Including:	
Manager basic fee	1.10%
Other management and administration expenses	0.02%
Other Charges	\$27 per investor per year

Individual action fees: There are no individual action fees.

Example of how this applies to an investor*

Small differences in fees and charges can have a big impact on your investment over the long term.

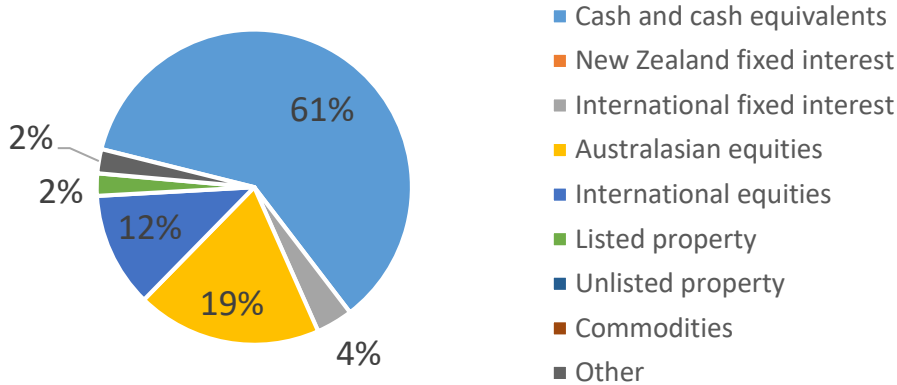

Tara had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Tara received a return after fund charges were deducted of \$517 (that is 5.17% of her initial \$10,000). Tara also paid \$27 in other charges. This gives Tara a total return after tax of \$490 for the year.

*As the fund has not been in existence for a full calendar year, the figures in this example are based on the market index annual return, less the actual fees incurred by the client (\$27). For actual returns see www.CareSaver.co.nz.

What does the fund invest in?

This shows the type of assets that the fund invests in.

Actual investment mix

Target investment mix

Cash and cash equivalents	10%
NZ Fixed Income	10%
International Fixed Income	20%
Australian Equities	15%
International Equities	45%

Top 10 investments

	Name	Percentage of fund net assets	Type	Country
1	Debtors	42.62%	Cash and cash equivalents	NZ
2	Cash at Bank - NZD	25.95%	Cash and cash equivalents	NZ
3	FX Open Positions	5.22%	Cash and cash equivalents	AU
4	Cash at Bank - USD	4.71%	Cash and cash equivalents	US

Further information

You can also obtain this information, the PDS for CareSaver KiwiSaver Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

Notes

- 1) **Risk indicator:** The fund has been in existence for less than 5 years. Market index returns (rather than the fund's actual returns) have been used to calculate the risk indicator. This means the risk indicator may be a less reliable indicator of potential future volatility of the fund..
